

Writtle
University
College

START AT YEAR 0

Specialist 1-2-1
and tutorial
support to help
you succeed.

Thought you couldn't study for a degree?

Yes you can with a Foundation Year at
Writtle University College.

Studying for a degree with an
integrated foundation year will
offer you a supportive
environment if you have been
out of education for a few years
or do not have the necessary
UCAS points from your recent
course of study.

The foundation year (Year 0) will
precede our standard 3-year
degree course programmes and
enables preparation for degree
study, with successful
completion granting direct
access to the undergraduate
course of your choice at Writtle
University College.

PRACTICAL

HANDS-ON STYLE

OF LEARNING

TURN YOUR PASSION

INTO A CAREER

DID YOU KNOW

Four-year degrees with an integrated
foundation year are funded in the same way as
any other undergraduate degree. Eligible
students will be able to apply for government-
backed loans to fund the duration of their
course.

THE BENEFITS OF STUDYING A PROGRAMME WITH AN INTEGRATED FOUNDATION YEAR AT WRITTLE:

- 1** You'll develop your interpersonal and problem solving skills working both independently and as a group.
- 2** You'll gain an underpinning knowledge of biological concepts to support further learning.
- 3** Develop transferable skills that can be applied to changing needs, including laboratory skills, maths and ICT-based capabilities and basic research skills.
- 4** Following successful completion of the foundation year, you will be able to access degree-level study in your chosen field.
- 5** You'll be fully integrated into university life and the student community from day one.
- 6** Our programme allows you to gain course specific experience via practical work in your chosen industry.
- 7** We will offer you specialist 1-2-1 and tutorial support to help you succeed.

4 year courses, with an integrated Foundation Year are available in the following subject areas:

Book onto one of our online webinar events to find out more about these courses:
